ADOS-2 Advanced/Research Reliability Workshop

This training was previously scheduled for February 10th-12th, 2022. We have postponed until May, 2022 due to new guidelines from UCSF extending the work-from-home order until March, 2022.

Overview:

The ADOS-2 is an observational assessment used to aid in the assessment and diagnosis of autism spectrum disorders across ages, developmental levels, and language skills. The second edition includes revised algorithms, a new comparison score for Modules 1-3, updated protocols with clearer administration and coding guidelines, and a new toddler module. The ADOS-2 advanced/research workshop is designed for individuals who have already completed ADOS-2 clinical/introductory training, including those who would like to establish research reliability so they can use the ADOS-2 for research purposes or gain hands-on clinical experience administering with live patients in small groups. The training is two and a half days, involving intensive instruction on the psychometrics of the instrument, working in small groups on administering and scoring the ADOS-2, and discussion and question/answer about specific administration and coding issues.

Prior to attending training, you will need to have access to an ADOS-2 manual and kit. ADOS-2 kits, manuals and protocols are available through Western Psychological Services at 1-800-648-8857 or at www.wpspublish.com [1]. Educational discounts on ADOS-2 materials are available for research use and use in training. Authors of the ADOS-2, receives royalties when people purchase these materials.

Dates and Times:

- Mon. May 16th; 8:00am to 5:00pm PST
- Tues. May 17th; 8:00am to 5:00pm PST
- Wed, May 18th; 8:00am to 12:00pm PST

?Prerequisites:

- Completion of ADOS-2 Introductory Clinical Workshop
- Submission of two videos of yourself administering two ADOS-2 modules (one Mod T-2 and one Mod 3-4)

Cost for Attendance:

- $2200 (*Option to submit post-course research reliability videos is $400 each; additional details to be provided at training*)

Location:

- UCSF Department of Psychiatry & Behavioral Sciences, 2130 Third Street, San Francisco, CA 94107

Required materials:

- You will need access to an ADOS-2 manual for the workshop.
- ADOS-2 kits, manuals and protocols are available through Western Psychological Services at 1-800-648-8857 or at www.wpspublish.com [1].
